

Resource Impact Reporting Form for Memorials or Resolutions

(Please attach this form to each memorial or resolution submitted)

Whenever we ask the churchwide organization, the synod, and/or congregations to act, there may be both financial and personnel resource implications in order to carry out the action. Before you submit your memorial or resolution, we ask you to spend some time reflecting on the potential resource impact your request might require.

We do not expect you to be an expert in process, nor do we ask you to estimate dollar expenditures (though it is perfectly acceptable if you do). Rather, we ask you to consider what might be necessary resource expenditures in order to carry out the action you are requesting.
